- Solid state disk
- Energy Efficient

Model 2500 All-In-One POS System

Designed for flexibility and scalability

The Model 2500 All-In-One system is a revolutionary product in All-In-One design. The 2500 features a 15" or 12" touch screen display along with integrated cable management. The 2500's unique ability to detach the CPU gives both the end-user and reseller an easy upgrade and service path.

The 2500 also boasts a quick detachable base and easy overall service features. The Model 2500 provides the flexibility and reliability that can meet the needs of even the most demanding POS environments.
