Designed for flexibility and scalability

The Model 300 All-In-One retail POS system is a revolutionary product in All-In-One retail design. The 3000 features a 12" touch screen display along with integrated cable management and is specifically designed for retail environments where a POS keyboard is required for typing.

The 3000 also boasts an angled platform base for ergonomic POS keyboard based data entry. Model 3000 provides the flexibility and reliability that can meet the needs of even the most demanding POS environments.
